

elitedali for Niagara AX®

Leidos Engineering now certified to deliver Niagara AX DALI® intelligent lighting solutions!

elitedali for Niagara AX® -

the world's first entirely web based DALI lighting solution
www.elidedali.com

Certified elitedali Partner™

Leidos Engineering successfully completes the Certified elitedali Partner (CeP™) program.

Leidos Engineering is now able to deliver world class DALI intelligent lighting control solutions based upon Tridium Inc's Niagara AX building management and automation platforms and Control Network Solutions (CNS) elitedali solution, to their blue chip global customers.

Leidos are developing into what IHS Research and others describe as a "Master or Super Integrator". These are organisations who can deliver open standards based, vendor independent convergent building management, automation and energy management solutions, addressing the emerging needs of blue chip end clients. Those clients increasingly require seamless access in real-time to building control and management device level data. This real-time data enables the end clients to understand how well their global estates are performing relative to their business outputs and implement immediate, and remotely if appropriate, changes and review the outcome.

Intelligent lighting controls from the traditional lighting controls industries continue to provide costly, standalone, proprietary and highly inflexible lighting solutions offering limited light fixture data access to the end clients' business analytics tools.

Control Network Solutions' elitedali for Niagara AX® turns BMS, BAS and BEMS platforms into the most vendor independent DALI intelligent lighting solution in the world today, at lower cost, providing seamless device level data access and delivering greater results whilst of course delivering great user experience and saving energy.

About Control Network Solutions Ltd (CNS)

Based in the UK, a Certified Tridium Development Partner creating market disruptive SMART web based global solutions for building controls delivered by the Niagara AX community.

To contact CNS Tel: +44 (0) 1256 818700, Email: Sales@control-network-solutions.co.uk, Web: www.control-network-solutions.co.uk , or www.elitedali.com .

About Leidos

Leidos is a FORTUNE 500[®] science and technology solutions leader working to address some of the world's toughest challenges in national security, health and engineering. The Company's 22,000 employees support vital missions for our government and the commercial sector, develop innovative solutions to drive better outcomes, and defend our Nation's digital and physical infrastructure from 'new world' threats. Headquartered in Reston, Virginia, U.S., Leidos reported annual revenues of approximately \$5.77 billion for its fiscal year ended January 31, 2014, after giving effect to the spin-off of the company's technical services and information technology business.
