

elitedali for Niagara AX®

CPL Concordia now certified to deliver Niagara AX DALI® intelligent lighting solutions!

CPL Concordia successfully completes the Certified elitedali Partner (CeP™) program.

CPL Concordia, a Honeywell CentraLine Italy Partner successfully completes the Certified elitedali Partner (CeP™) process. This now enables CPL Concordia to deliver world class DALI® intelligent lighting controls based upon the elitedali for HAWK from CentraLine®.

CPL Concordia is a €415 million multi-utility co-operative group involved in every aspect of energy - from procurement and distribution, to sales and accounting for gas and electricity as well as its production by means of both traditional and renewable systems.

CPL Concordia, as part of their CeP process, chose to immediately install an elitedali HAWK based DALI lighting solution in one of their new building in Modena. Based upon their successful experience they are now also extending this lighting control solution into their new headquarters building which is currently under construction in Modena.

About Control Network Solutions Ltd (CNS)

Based in the UK, a Certified Tridium Development Partner creating market disruptive SMART web based global solutions for building controls delivered by the Niagara AX community.
