

CNS-Enocean™ - Native Niagara AX™ Driver for EnOcean® wireless networks.

CNS has created an EnOcean Ethernet wireless transceiver driver for Niagara AX.

The CNS-Enocean Niagara AX driver enables Niagara System Integrator Partners to use their existing Niagara tools, skills and knowledge to:

-  Use Niagara AX to discover and commission networks of EnOcean batteryless/wireless switches, sensors and their EnOcean Ethernet wireless transceivers
-  No Third Party commissioning tools or processes required
-  Automatic EnOcean batteryless/wireless device modelling in AX
-  No data IO mapping and labelling required, reduced commissioning time and risk
-  Use with any EnOcean product manufacturer's batteryless/wireless switches and sensors conforming to the EnOcean-Alliance profiles

What is EnOcean®?

It is an ISO/IEC standards based wireless sensor solution for use in buildings and industrial installations. The *EnOcean* wireless *standard* is ratified as the international *standard* ISO/IEC 14543-3-10.

EnOcean pushes technology and environmental responsibility to the limits. EnOcean modules combine micro-energy converters with ultra low power electronics and reliable wireless communication standards. There are currently 300+ global developers and manufacturers creating interoperable batteryless/wireless switch and sensor products and solutions with over 20,000,000 already successfully installed in more than 250,000 buildings worldwide. See www.enocean.com

What is Niagara AX?

Niagara AX™, Tridium Inc's next generation software framework for building device-to-enterprise applications and Internet-enabled products, provides a unified development platform to easily build Internet-enabled products and software applications for controlling and managing diverse "smart" devices across an enterprise in real time. It is the world's de-facto standard in convergent web technology platforms with more than 40+ global OEM's producing iBMS/BAS solutions based upon Niagara AX and installed in more than 200,000 buildings. See www.tridium.com

Who is Control Network Solutions (CNS)?

CNS is a Certified Tridium Developer Partner. Using Tridium's web convergent technology platform, CNS creates smart open standards products and solutions for delivery by Niagara AX Certified System Integrators, Distributors and OEMs as part of their iBMS/BA solution and service offering.

CNS's first standard Niagara AX product was a native Niagara AX DALI® lighting solution called elitedali for Niagara AX®, which is available via a global network of Certified elitedali Partners (CeP™). This new CNS-EnOcean Niagara AX Driver leverages our experience with elitedali and device modelling techniques and will also be available via the global network of Niagara AX System Integrators, Distributors and OEM's.
