

CNS-Enocean™ Native Niagara AX™ Driver for EnOcean® wireless networks.

CNS has created an EnOcean Ethernet wireless transceiver driver for Niagara AX.

The CNS-Enocean™
Niagara AX Driver
enables Niagara AX
System Integrator
Partners to use their
OEM Niagara AX tools,
skills and knowledge:

-  **Discover and commission networks of EnOcean Ethernet wireless transceiver devices connected to Niagara AX**
-  **Discover and commission networks of EnOcean batteryless/wireless switches and sensors communicating with the EnOcean Ethernet wireless transceivers**
-  **Automatic EnOcean batteryless/wireless device modelling**
-  **No requirement for Third Party commissioning tools**
-  **No data IO mapping and labelling required equals reduced commissioning time and cost**
-  **Use with any EnOcean product manufacturer's batteryless/wireless switches and sensors**

What is EnOcean®?

It is an ISO/IEC standards based wireless sensor solution for use in buildings and industrial installations. The *EnOcean* wireless *standard* is ratified as the international *standard* ISO/IEC 14543-3-10.

EnOcean pushes technology and environmental responsibility to the limits. EnOcean modules combine micro-energy converters with ultra low power electronics and reliable wireless communication standards. There are currently 160 global developers and manufacturers creating interoperable batteryless/wireless switch and sensor products and solutions with over 15,000,000 already successfully installed in more than 200,000 buildings worldwide. See www.enocean.com

What is Niagara AX?

Niagara AX™, Tridium Inc's next generation software framework for building device-to-enterprise applications and Internet-enabled products, provides a unified development platform to easily build Internet-enabled products and software applications for controlling and managing diverse "smart" devices across an enterprise in real time. It is the world's de-facto standard in convergent web technology platforms with more than 40 global OEM's producing iBMS/BA solutions based upon Niagara AX and installed in more than 200,000 buildings. See www.tridium.com .

Who is Control Network Solutions (CNS)?

CNS is a Certified Tridium Developer Partner. Using Tridium's web convergent technology platform CNS creates smart open standards products and solutions for delivery by Niagara AX Certified System Integrators, Distributors and OEMs as part of their iBMS/BA solution and service offering.

CNS's first Niagara AX product is a native Niagara AX DALI® lighting solution called [elitedali for Niagara AX®](#), which is available via a global network of [Certified elitedali Partners \(CeP™\)](#). This new CNS-EnOcean Niagara AX Driver leverages our experience with elitedali and device modelling techniques.
