OPENING NETWORK FRONTIERS

Lighten the load with eLighting™ for Niagara AX™ Product Suite Release 1.0

Powered by

CNS is pleased to announce the imminent release of **eLighting** for Tridium's Niagara AX Framework.

eLighting is a suite of hardware and software components that collectively provides web based lighting control solutions for intelligent lighting systems directly connected to Tridium's Niagara AX™ Framework and the Jace™ embedded platform.

The **eLighting** Product Suite Release 1 comprises the following:-

- ◆ Licensed software - Dali driver, lighting objects and control components
- ◆ Hardware – Dali serial interface, Dali network PSU, Dali Multi-sensor

The **eLighting** product suite has been tested with Tridonic Atco, Philips Lighting, Osram, Helvar Dali ballasts and inverters.

eLighting lightens the load on your costs as follows:-

- ◆ Lower cost of installation
- ◆ Leverage existing or planned investment in Tridium's Niagara AX convergent platform for buildings control
- ◆ Lower cost of ownership
- ◆ Supports efforts to reduce energy use, both direct and indirect addressing CO2 emissions issues and European Building Performance Directives
- ◆ Sustainable solution that can be retrofitted into existing Dali lighting installations

eLighting lightens your load even further by giving early adopters special introductory discounts on their first orders ahead of full product launch.
