

Open Day

If smart IoT disruptive solutions for building & lighting controls is something that interests you, then come and visit us in Basingstoke to learn more!

When: Anytime week commencing 30th May, just email or telephone confirming preferred date and time

Where: Studio 7, Intec 2, Intec Business Park, Wade Road, Basingstoke, RG24 8NE (5 mins from Basingstoke Railway station)

CNS's smart IoT based lighting control solution for all types of commercial buildings is disrupting the traditional a market, globally. It is now gaining traction in the multi-billion dollar lighting control solution industry, being approved and delivered into some of the world's biggest corporations buildings, state of the art hospitals, offices, warehouses and factories.

As the "New Kids on the block for lighting control" we have established a lead over the traditional lighting controls industry of somewhere between 2 – 7 years and we intend not to give up that lead anytime soon.

Now we are looking to add talented engineering individuals who want to grow with us, as well as, make a difference in the world. The only limitation to realising your full potential will be yourself.

So if you want to work where you can make a big difference, be yourself, able to express your thoughts and ideas, know everything that is effecting the business you work for, enables you to grow your skills and strengths and where you can feel proud to work, where every day is an opportunity to make an impact and where common sense prevails over bucket loads of rules and regulations, pop over and see us and see what you think?

Looking forward to meeting you,

The CNS Team!
